**No country is exempt.  
The race is on.**

[greeneconomytracker.org](https://greeneconomytracker.org)

The **Green Economy Tracker** is the first tool of its kind to benchmark how nations are transitioning to green and fair economies.

- The **Green Economy Tracker** is the first tool of its kind to benchmark nations' readiness for a green and fair economy.
- **Citizen science** - The tracker platform is dynamic, incorporating feedback from civil society groups and users around the world. Comparable and updated over time - GEC + TIPS updated SA data.
- **Countries** - We have 32 countries tracked and 9 more in the pipeline - there's provisional data for them already on the site.

...a 21<sup>st</sup> trackable policy on the green recovery

**20 trackable policies across 5 themes**  
and a unique policy to track our recovery from this global crisis

## **Green COVID-19 Recovery**

Deploy an ambitious suite of green recovery policies as part of COVID-19 economic support packages, which provide immediate stimulus and drive a structural transition of economic sectors towards a greener, more resilient, and inclusive economic model.

> **Green COVID-19 Recovery**

A cross-cutting, 'one-stop-shop' policy on green recovery

...a simple, 5-point scoring framework for each policy. Here, green recovery...

## Green COVID-19 Recovery

Our 5-point scoring framework rewards economic support packages with:

- Significant levels of green investment (as a %GDP) **and** green conditionality
- Attention to **each of**
  - Carbon reduction / climate mitigation and adaptation measures
  - Ecological sustainability / natural capital investment
  - Inclusivity, green jobs and integrated eco-social policy that supports a just transition
- Cross-cutting and transformational policies, with a structural long-term agenda

### Scoring

Some of our key sources:

- IMF Policy Responses to COVID-19
- Greenness of Stimulus Index
- Energy Policy Tracker
- Green Recovery Tracker
- Oxford Global Recovery Observatory
- And numerous national sources...
